**DETAILED AMENDMENT**

**Sir:**

In response to the Final Rejection (PTOL-326) Mailed on 05/10/2002, the Examiner's Supervisor Mr. **Nestor Ramirez**, thus, informed applicant by way of a telephone communication that the PTO with respect to **Central File** are expecting his **Election, or Restriction** response via a **Non Final rejection**.

Upon further consideration the conclusiveness of the rejection of the last office action (paper # 9) is withdrawn appropriately, since Application Number **09/726,280** comprises the **Restriction** limitation regarding the above modification.

Therefore, the foregoing Supervisor further informed applicant that he should mail his restriction requirement on his parent case, consequently along with an amendment to his **C.I.P.** Application Number: **09/849,373**. As a result, the "**A perpetual energy complex**" language is omitted from the claims as set forth in the **Non-Final Rejection** mailed 07/02/2002.
